PARTNERING WITH BOEHRINGER INGELHEIM ANIMAL HEALTH

PAIN AND MOBILITY

Boehringer Ingelheim welcomes collaborations with partners in pain and mobility, who share our passion for improving the health and wellbeing of animals, to help us find solutions to some of the biggest challenges in animal health today.

Pursuing Innovation

- · Leveraging our track record of expertise
- Target, Repair, Prevent strategy investigates pathways and mechanisms associated with chronic inflammatory diseases
- Research focus aims to meet unmet needs in acute and chronic pain with easy-to-administer formats.

Actively pursuing new partnerships in our areas of interest and open to a variety of partnership models to explore:

- Novel, non-opiate treatments for post-surgical pain
- Regenerative, disease-modifying approaches for OA, able to be administered infrequently or by non-intra-articular routes
- · Analgesics with novel mechanisms of action
- Oral, non-NSAID chronic pain treatments with excellent safety profile.
