

IMMUNOLOGY & INFLAMMATION

Boehringer Ingelheim welcomes collaborations with partners in **immunology & inflammation**, who share our passion for improving the health and wellbeing of animals, to help us find solutions to some of the biggest challenges in animal health today.

Pursuing Innovation

- Robust immunology & inflammation pipeline addresses diseases with high, unmet need
- Targets key processes in the development of immune disorders and inflammatory diseases
- Explores disease mechanisms and common pathways to create synergies across research programs.

Actively pursuing new partnerships in our areas of interest to discover and develop innovative solutions for:

- Canine atopic dermatitis
- Inflammatory bowel disease
- Other autoimmune diseases (i.e., SLE)
- Osteoarthritis
- Chronic kidney disease
- Pulmonary fibrosis.
